

## *Edition 2 – EP Scholarship News*

**Name:** Jacob Alen BONOMALI

**Nationality:** Tanzanian

**Program:** MSc. Petroleum Engineering and Project Development (2021/2022)

**School:** IFP School

**Sponsorship:** TotalEnergies

**End-of-study Internship:** TotalEnergies OneTech, as a Junior Flow Assurance Engineer

### **Testimony:**

Special thanks to TotalEnergies and everyone from education team for your generous gift that made my education attainable. Through your support, I have accomplished much of what I never thought possible. I am proud to say I had worked hard to be where I am, but I certainly could not have done it without your help. I am forever grateful for your generosity.

I am now close to the very end of my internship, and I can truly express how wonderful this experience has been. I believe that I have grown and changed so much throughout my stay here in France because my professors at school and supervisors at the company have stretched my experiences and abilities, and I have met many people who have positively influenced who I am today. TotalEnergies is a great company, especially their investment in young generation, and I am grateful that I had the opportunity to be part of this circle.

Thank you.
